- Repeat the process to report all the games you worked, camps you attended, tests you've taken, etc. Since only 10 instances can be reported at once, you'll likely need to split the reporting of your games. For example, say you worked **49** varsity games during the season. You will need to report the games 10 at a time until you reach the desired number. In this example, you would report 10 + 10 + 10 + 10 + 9. If you do not have the exact dates of your first 10 games, second 10 games, etc., use your best guess.
- When you've entered all your activity, your Season Totals should update automatically. If not, click the "Click here to recalculate!" link.
